The Town of Dayton, Wyoming will receive sealed bids for the Dayton WWTP Improvements Project. The project is generally described as follows:

1. Removal of the current UV disinfection system and installation of a disinfection system consisting of a chlorine (Cl₂) gas feed system followed by de-chlorination through use of sodium dioxide (SO₂).
2. Installation of a subsurface aeration system in Cells #1 and #2.
3. Construction of a new blower/disinfection building to house:
 - a. new blowers for the proposed aeration system improvements;
 - b. the Cl₂ and SO₂ gas cylinders and feed equipment; and
 - c. related electrical and instrumentation equipment.
4. Construction of a contact chamber to provide adequate time for Cl₂ to contact the treated effluent, to be followed by injection of SO₂ for de-chlorination purposes prior to discharge into the Tongue River.
5. Relocation of existing sanitary sewer lines and manholes to accommodate the new blower/disinfection building.
6. Installation of new valves on existing and relocated sanitary sewer lines in order to provide for isolation of the various lagoon cells.
7. installation of new electrical power cables and related equipment to accommodate the proposed improvements.
8. Removal and replacement of the existing barbed wire fence which is located along the property lines of the site.
9. Miscellaneous streambank improvements along the Tongue River adjacent to the WWTP.

Sealed bids will be received at Dayton Town Hall, 608 Broadway, Dayton, Wyoming, until 2:00 PM local time on Thursday, December 16, 2021. The bids will then be opened and read aloud.
